Fribourg profile
The Department of Social Sciences supervises doctoral theses in Social Work and Social Policy on various topics and various methods. Doctoral training at the Department of Social Sciences feature both basic research and applied research. Supervision takes place individually or within a doctoral programme.

The doctoral programme PROWEL (Social Problems and Social Welfare; see link below) is offered in English in the field of Social Work and Social Policy.

Doctoral students present their work at regular intervals throughout the doctoral programme. They receive comments and feedback on their work from colleagues, professors and international experts. Doctoral students receive motivation and support when presenting their results at national and international conferences. They are also given national and international networking opportunities.

Content, methods and language of the thesis work are agreed with the supervising professor, supervising assistant professor.

Admission
In order to be admitted to a doctorate the candidate must have been awarded an academic Bachelor’s and Master’s degree or an equivalent qualification by a university recognised by the University of Fribourg.

Before applying for a doctorate the candidate should contact a professor who would be willing to supervise the thesis work.

There is no general right to be admitted to a doctorate.

The respective conditions of admission for each doctoral study programme are reserved.
