Human Medicine

Degree conferred
Bachelor of Medicine in Human Medicine

Languages of study
Study in two languages, in French and German

Commencement of studies
Commencement of studies only in the Autumn Semester (September)

Access to further studies
Master, at one of the five faculties of Medicine in Switzerland

This study programme provides full schooling in Human Medicine at Bachelor’s level. Admission is subject to the numerus clausus. The first year of study consists of physics, chemistry, an introduction to organ systems and fundamental human biology. In-depth study of the systems begins in the second semester and continues during the second and third years; during the second year, the emphasis is placed on the morphological and functional aspects, and in the third year on understanding the mechanisms responsible for the development of disease. The course also provides skills in medical interviews, clinical examination techniques and basic practical gestures, on real or simulated patients, and immersion days in a doctor’s surgery. Holders of the Bachelor’s degree from the University of Fribourg continue their studies to Master’s level at one of the five faculties of Medicine in Switzerland.

Profile of the study programme
The Department of Medicine of the Faculty of Science offers Bachelor’s level education in Human Medicine. The holder of a Bachelor of Medicine in Human Medicine has command of the knowledge and skills necessary to continue studying to Master’s level in one of the five faculties of Medicine in Switzerland.

The first year of study consists of physics, chemistry, an introduction to organ systems and fundamental human biology. Holders of the Bachelor’s degree from the University of Fribourg continue their studies to Master’s level at one of the five faculties of Medicine in Switzerland.

Learning outcomes and career openings
The university course lasts a total of six years, giving access to postgraduate education, which is compulsory for practising medicine as an independent doctor. The main career options are:

- Independent doctor: specialist in general medicine or other speciality;
- Contract doctor, usually in a hospital;
- Doctor in research (university, industry, etc.).

Organisation des études
Structure of studies
180 ECTS credits, 6 semesters
