Award of a double degree with the University of Caen Normandie (France) possible.

Languages of study
Students can take courses in English, French and German.

Commencement of studies
Commencement of studies in the Autumn Semester (September) or in the Spring Semester (February)

Access to further studies
Ph.D.

Fribourg profile
The modular structure of the study programme allows students to personalise their curriculum and demonstrate the skills they have acquired. Students can focus on the Accounting and Control or the Finance module, depending on their interests.
Within the framework of the BeNeFri agreement, courses can also be attended at the Universities of Bern and Neuchâtel.
In addition, the Faculty of Management, Economics and Social Sciences of the University of Fribourg together with the University of Caen Normandie in France provides the option for selected students to add a double degree programme leading to the award of two university master's degrees. The first year of study is completed in Fribourg and the second year in Caen. The second semester of the study year in Caen consists of a six-month internship in a company, in the context of which the master's thesis is written. On both diplomas it is mentioned that the student is awarded a double degree.

Learning outcomes and career openings
The course offers graduates excellent career opportunities in the fields of auditing, certified accounting, banking and general finance. A few examples include:
- Tax Expert;
- Business Management Consultant;
- Financial Analyst;
- Portfolio Manager;
- Management Accountant.

Studies organisation
Structure of studies
90 ECTS credits, 3 semesters
or
120 ECTS credits, 4 semesters, for the optional double degree programme.

Admission
Master's degree programmes are built on the knowledge and abilities that were acquired when obtaining a bachelor's degree.

Holders of a bachelor's degree awarded by a Swiss university are admitted to a master's degree programme without any preconditions if they have earned 60 or 90 ECTS credits – depending on the chosen master's degree programme – within the corresponding discipline. However, additional requirements can be required. The same applies to holders of a bachelor's degree awarded by a foreign university, provided that the bachelor's degree is recognised and considered equivalent by the University of Fribourg.

Holders of a bachelor's degree awarded by a Swiss or a foreign university, provided that the bachelor's degree is recognised and

Profile of the study programme
This master programme provides in-depth education in the field of accounting and financial management. Students must choose the majority of their courses from the following core modules:
- Accounting and Control
- Finance

The programme is completed with courses in the fields of Data Analytics and/or Audit and Tax.
The final master thesis is an individual research project at the end of the programme that is designed for students to apply their knowledge acquired throughout their studies.
considered equivalent by the University of Fribourg, who do not fulfil this condition can be admitted to a master’s degree programme with preconditions (which must be successfully completed before starting the master’s degree programme) and/or additional requirements (which can be completed during the master’s degree programme). The preconditions and/or additional requirements may not exceed 60 ECTS credits in total. The same applies to holders of a bachelor’s degree awarded by a Swiss university of applied sciences, according to existing agreements.

*The respective conditions of admission for each master’s degree programme are reserved.*
